Achievements
SAC member from my 1st year
Won several competations
Did ZOHO certification courses
Did more then 100 problems in LeatCode
Participated in ML competations in Kaggle

Class 12 at Sri Chaitanya Junior College
Tenali, Guntur, AP
2019 - 2021

PROJECTS DID IN THE UNIVERSITY

IDP (Inter Disciplinary Project)
Smart Attendence Marking System :
We have developed an application that utilizes face recognition techniques to take attendance in organizations or institutions using computer assistance. In this project, we built an AI (Deep Learning) model and trained it on images of individuals until it accurately identifies each person.

Deep Learning Project
Emotion Recognition in Human-Computer Interaction :
Emotion Recognition in Human-Computer Interaction (HCI) involves enabling computers to detect and respond to human emotions using AI. By analyzing inputs like facial expressions and voice, these systems enhance user experiences across various applications. This technology promises more intuitive interactions but raises ethical concerns around privacy and consent.

InternShip status
I am currently doing an internship on Full Stack Data Science (FSDS) in Sure Trust organization. it is am 10 month internship,where we are getting knowledge from the trained and well experienced trainers from all over the India.
